

Methods In Prenatal Toxicology: Evaluation Of Embryotoxic Effects In Experimental Animals

by Teratology Workshop ; Dieter bert

In Vitro Toxicology, Second Edition - Google Books Result Available literature data on maternal toxicity and embryotoxicity of . No signs of maternal and prenatal toxicity could be detected in mice under the experimental conditions chosen up to the dose of 13.5 mg TBTO/kg b.w. compound by evaluating a sufficient number of dams and fetuses. MATERIALS AND METHODS. Methods in prenatal toxicology : evaluation of embryotoxic effects in . References - Human & Experimental Toxicology - Sage Publications Methods in prenatal toxicology: Evaluation of embryotoxic effects in .
